

Snack & bake.

Delicious. Quick preparation.

Time to rethink the old rules and to create new ones.

The take-away market is booming, but many establishments are still playing by the old rules: Quantity rather than quality is being served over the counter. Customers require quality, creativity, individuality. It is not simply about getting full, but about eating well: snacks must also have their vitamins, proteins, minerals. Quickly throughout the day. Just as flexible as the modern working life. For you this means all of this on top, but with the same number of employees. How can this be done? With something that writes new rules. Because it delivers quality. When frying, baking, boiling. All day long. Because it is intelligent. Like the iCombi Pro.

The result

Generate additional business with high-quality and flexible production.

Simpler than you think.
Setting trends.

Pizza, burgers, wraps, buttermilk chicken, wholegrain bread, and omelette with chia seeds. Always individual and prepared to perfection. Always when your customers want it. Morning, lunchtime and evening. Fast, uncomplicated and healthy. Following a quick clean, it all looks as if nothing happened. Indulgent, unusual, individual, your creativity knows no limits. This is the snack business with the iCombi Pro.

➔ For one reason
 So you can stand out even more from the catering mass produced products, with your individual products and services. Around the clock.

The iCombi Pro.

Expect the unexpected.

Humidity, air speed and temperature. Carefully coordinated. In a unit that thinks with you, learns from you, forgets nothing, adjusts and adapts. Always delivers consistent quality at the press of a button. Easily operated even by temporary staff. Thanks to its intelligence assistant functions, it responds to all changing requirements dynamically. Frozen food? Has the cooking cabinet door been open too long? Do you want to bake more croissants than usual? The iCombi Pro never loses sight of the desired result and adjusts the settings independently.

➔ **Everything for the one goal**
So you can keep on impressing your customers with outstanding products.

rational-online.com/ca/iCombiPro

Intuitive operating concept
The new operating concept runs through the production process with visual imagery, logical work steps and clear, interactive instructions. So that everyone can work error-free from the start.

Cooking intelligence
The iCookingSuite knows the way to your desired cooking result and produces it time and time again. In excellent quality. You can also intervene at any time during the cooking path or switch from a single to a mixed load. This is freedom, this is flexibility.

Precise temperature setting
When baking, even just a couple of degrees will impact the result. This is why the iCombi Pro is also very precise in its temperatures.

ENERGY STAR® Partner
The key value is energy-efficiency. This is why the iCombi Pro has been tested by the strictest certification programme.

Baker's standard

Are your accessories compatible with bakery standard? No problem, you can choose to have the iCombi Pro with the corresponding hinging rack. Or use the baker's standard mobile plate rack.

Integrated WiFi

The integrated WiFi-interfaces means the iCombi Pro connects easily both to a network and to your smartphone in order to connect with ConnectedCooking. For more convenience, security and inspiration.

Active dehumidification

A skill to be mastered: Taking the humidity out of the cooking cabinet at the right time so that the baked goods and roasts come out with a crispy crust. The iCombi Pro can do this. Thanks to its baking intelligence.

Humidification

The iCombi Pro distributes the humidity to the cooking cabinet with precision. For elastic dough, for optimal gloss.

Baking with success: Select the intelligent cooking path, load and very quickly your bread, bread rolls and pizza will have baked themselves.

Just one full load.

There's never enough of the good things.

Bread, bread rolls, pretzels - the baskets and shelves need to be full by seven tomorrow morning. Always with the same quality. This is why the iCombi Pro also has intelligent baking paths for bread and bread rolls. So you can produce your desired result easily and reliably. So that the identical results comes out on every single rack, in every single piece. Whether each load contains 60 or 120 bread rolls. No matter who operates the appliance. Thanks to active dehumidification, thanks to fan wheels in five speeds, thanks to standing heat. As this is all done very quickly, there is enough time to serve your customers.

➔ **Everything for the one goal**
So you can keep on impressing your customers with outstanding baked goods.

All fresh.

All available. All a matter of organisation.

The first rush is over, time for restocking. The challenge: Not too much, not too little, so that it is all fresh for serving. It is time for sweet treats like cookies, muffins, apple turnovers. Because this demands organisational talent. Because this demands the iProductionManager. Which tells you what you can cook together and even suggests the time or energy-optimised order. Frozen goods, fresh dough, small pastries, large pastries, one or more trays none of it a problem. Simply enter the desired result, start the baking path, done. For fast restocking, for delicious mixed loads.

➔ **It doesn't get any easier than this**
Stand out from the rest, spoil your customers with a variety of products. Without the need for any additional equipment.

MyDisplay

Error-free operation, always the same level of quality with MyDisplay: Here different dishes you specify are shown on the display as an image or icon. Tap and the iCombi Pro will start working. You can add or delete recipes just as easily.

Set a new snacking standard.

Delicious, varied and quick.

The trend is all about the mini meal, which mainly appeals to people with flexible working hours plus single people, it has the potential for a healthy increase in sales. It has to be healthy and taste good too. Hip, fancy, varied and quick are the criteria according to which customers judge their breakfast, bowls and wraps. Fulfil their requirements without additional effort, with consistency, no matter who operates the unit. You can save the recipe for your snack in the shopping carts. The iCombi Pro will start at the push of a button. With the same quality every time.

- ➔ **Create experiences**
Produce different dishes at the push of a button. Reliable consistent quality. Reliable increased sales.

Shopping carts

With the iCombi Pro, you can always serve your products to the same quality. Without any effort or trained staff. Because the unit features shopping carts, which contain the things that can be cooked together on the basis of your menu. Tap the shopping cart required for production, e.g. "Snacks", on the display, drag the foods to the rack, load the iCombi Pro and the unit will start.

How to surpass yourself.

Without having to do much.

Noone expected this: Thai curry, samosas, involtini and coq au vin. Or rather escalope with chips? It is so easy to prepare a wide variety of foods with minimal effort, even at lunch time. With the iProductionManager for example, which tells you when you can prepare your specified foods. Then chill it, and bring it to consumption temperature for service with finishing. This can also be done with convenience products.

➔ How it's done

Prepare anything you require at any time you want. Bring everything to serving temperature with finishing. Simply delicious.

Tip: Finishing

It is mid-day. The offices are emptying and your shop is getting busy. Quickly. This is when finishing, the consistent separation of service and production, comes into play. Container finishing is recommended especially for large quantities, such as to efficiently serve crisp and fresh vegetables. To do this, place the pre-produced and chilled food in the iCombi Pro and bring it to the right temperature at the push of a button. Completed with simplicity and certainty. Without any loss of quality.

ConnectedCooking. All under control.

Everyone's talking about networking. The iCombi Pro has it. You can connect the iCombi Pro with ConnectedCooking, RATIONAL's secure internet platform, with the WiFi interface fitted as standard. Was the turkey breast recipe a hit? Simply send it off to all the cooking systems on the network. Wherever they may be. Which cooking system is being used and how? Check on your smartphone. Looking for inspiration? Right there in the recipe database. Software update? The cooking systems are easily updated at the push of a button. Retrieving HACCP data? Completed with just a click. Also if you wish, the iCombi Pro will call its RATIONAL service partner itself for servicing.

- ➔ **ConnectedCooking**
Powerful networking by RATIONAL. Always keeps everything under control.

rational-online.com/ca/ConnectedCooking

To keep your mind at ease. Top marks in hygiene.

Food safety is important. Especially in the take-away business. This is exactly why you can also rely on the iCombi Pro here. When it comes to hygienic brilliant cleaning with the iCareSystem, which recognises the level of soiling, suggests the corresponding cleaning program including cleaner tabs and even completes the ultrafast clean in approx. 12 minutes. Also when it comes to easy operation, which virtually eliminates errors and as such guarantees that all food have a hygienically safe core temperature.

- ➔ **Play it safe**
The iCombi Pro meets international standards in terms of hygiene. Everything is documented. For peace of mind.

- ④ Installation kit for iCombi Pro XS with condensation hood

“We saw the cooking system for the first time at the RATIONAL CookingLive event. That’s when we decided to include it in our kitchen, after seeing its excellent and consistent results, along with the savings it provides.”

George Kailis, Owner and Manager TAMALA Café Bar, Kiti, Cyprus

ServicePlus.

The beginning of a wonderful friendship.

The right service makes the RATIONAL unit and your kitchen a complete success: from the initial consultation, the test cook, installation to the individual start training and software updates and the ChefLine, the telephone hotline for individual questions - RATIONAL has it all. Or you can attend training at the Academy RATIONAL. At the same time, you can contact a certified RATIONAL dealer at any time: they know all the units by heart and will find the right one for your kitchen. The worldwide RATIONAL Service team is always close at hand in case of emergencies.

➔ **ServicePlus**
All with a single objective:
Ensuring your investment pays off in the long term, that you always get the most out of your units and that you never run out of ideas.
