

Limited service hotels.

Sophisticated concepts.

More sales.

The daily challenge: Impressing your guests.

The location and facilities of the hotel are important to your guests. That the price-performance ratio must be right. That this is both an attractive and competitive market. You therefore need to stand out from the competition, for example with an attractive F&B concept. Although there is restricted kitchen space, staff or room for creativity.

- ➔ **Living a vision**
Your concept of tomorrow,
planned and implemented today.

Everything as you require. Concept and planning.

Trends, ideas and customer requirements - all this is reflected in the concepts of RATIONAL. Concepts that are specially tailored to your core challenges. Regardless of whether you require support at one, or more locations.

Food concept

Orientated to your guests, your culinary concept and the competitive situation:

- > Who are the guests and what types of food are offered?
- > What does the culinary concept look like?
- > What is the competitive situation in the environment?

Kitchen concept

Menu, staff, kitchen size – this and other factors will determine the kitchen concept. For one or for 100 hotels.

- > How to produce this? Ready-to-serve products or freshly cooked?
- > What technology is required?
- > How big does the kitchen need to be?
- > Are skilled workers required?

Training concept

Individually tailored to the needs of your staff.

- > What qualifications do your kitchen staff have?
- > How is standardisation ensured?

Service concept

RATIONAL works with certified service partners worldwide, who will support you with individual concepts.

- > What technical conditions are required?
- > Is there a service partner available at my hotel locations?
- > Are there maintenance contracts for better cost control?

Future concept

Successful today, unsuccessful tomorrow. So that this does not happen, you can rely on regular control.

- > How to respond to current trends?
- > What does kitchen networking look like?

"In the early shift, only two people now prepare breakfast for 300 guests."

Jens Hulek, Head of Food & Beverage, Premier Inn, Germany

➔ This is how you benefit
Experienced contact, individual consultation and specific implementation.

Tailored.

Your personal food concept.

7 am, a full breakfast room, the guests are in a hurry, they have international cuisine requirements. The time frame is limited. So the iCombi Pro gets busy. As part of your food concept, and being responsible for the hot food components such as pancakes, omelettes and bacon on the breakfast buffet.

➔ **For one reason**
Consistent quality. No matter who is operating the iCombi Pro.

MyDisplay

Error-free operation, always the same level of quality with MyDisplay: Different dishes that you specify are shown on the display as an image, or icon. Tap and the iCombi Pro will start. You can also add or delete recipes just as easily.

Shopping carts

With the iCombi Pro, you can always serve your dishes to the same quality. Without any effort or trained staff. The unit has shopping carts, which contain the dishes that can be cooked together on the basis of your food concept. Tap the shopping cart required for production, e.g. E.g. breakfast, on the display, drag the foods to the rack, load the iCombi Pro and the unit will start.

In use all day

You can never plan what the next order is going to be.

Bread rolls, pizza, burgers, pastries, morning, lunch, afternoon, and evening. Always ready when your customers want it. Fast, uncomplicated and after a quick clean, it all looks as if nothing happened.

Expand your menu offering.
Generate extra business.

An exhausting day is coming to an end, a drink at the bar, a bite to eat - your guests will love this. Surprise them with chicken wings, mozzarella sticks, burgers, pizza and curries. Quick, reliable and prepared to your specifications. Whether for lunch or in the evening, fresh or convenience product.

➔ **It helps**
Respond flexibly with intelligence. Including special requests.

rational-online.com/gb/iCombiPro

Convenience products
The iCombi Pro never loses sight of the desired result and will adjust the settings independently. With the iProductionManager for example, which tells you when you can prepare your specified foods. So that your guests are served quickly, with precise perfection and always to the same standard of quality.

Frozen
The iCombi Pro is so powerful that even frozen food is cooked in no time. The cooking system recognises the condition and size of the food and adjusts the cooking process accordingly. The result, everything is always consistently high quality.

Freshly cooked
Steak or fresh vegetables are normally a challenge for untrained staff. In the iCombi Pro, however, the cooking path is already created for this and many other products, so that it does it all by itself with its intelligence, there is nothing else to do in the kitchen.

Intelligent, flexible, on minimal space.

The iCombi Pro.

On less than approx. 1 m², the iCombi Pro will show what you can do with a combination of heat and steam. For 2 or 200 guests. Ready-to-serve products, freshly cooked, frozen and convenience. Thanks to its cooking intelligence and its climate management, it is all done automatically. Precisely. With maximum loads. With mixed loads. No monitoring or checking required. 24 hours a day. So the iCombi Pro gives you outstanding food quality. Time and time again.

More information:

rational-online.com/gb/iCombiPro

Intuitive operating concept

The operating concept runs through the production process with visual imagery, logical work steps and interactive instructions. So that everyone can work error-free from the start.

Ergonomic display

Touchscreen, easy to clean surface, large font and a clear structure. All for simplified working methods.

Efficient food production

Together, standardised quality and intelligent processes make a powerful cooking system. For fast, error-free food production.

ENERGY STAR® Partner

The key value is energy-efficiency. This is why the iCombi Pro has been tested by the strictest certification programme.

Integrated WLAN

The integrated WLAN-interfaces means the iCombi Pro connects easily both to the Internet and to your smartphone in order to connect with ConnectedCooking. For fast software updates, recipe transfers and HACCP documentation.

Ultrafast cleaning

A clean unit in approx. 12 minutes, this can only be done by the iCombi Pro. Even the standard clean saves 50%* in time and cleaner.

Maximum flexibility

Scrambled eggs, sausages and grilled tomatoes - food products that can be cooked at the same time in the iCombi Pro, using the same cooking method. Creates flexibility, saves time.

* Compared to the previous model.

Making sure your kitchen is lacking in nothing.

The iCombi Pro.

Essentially, the iCombi Pro only has one task, reliably delivering consistently high quality results. It is therefore equipped with a whole lot of intelligence and impresses with its productivity, simplicity and quality. For example, it recognises whether it is going to cook one or 20 burger patties and regulates conditions automatically. It supports you with time or energy-optimised production plans. For the best way to stock the breakfast buffet for example.

➔ **The goal**

Everything to save time, energy and raw materials.

rational-online.com/gb/iCombiPro

iCookingSuite

This makes the iCombi Pro intelligent so that the desired result is reached reliably and automatically. The sensors recognise the size, quantity, browning and condition of the foods and automatically adjust the cooking parameters such as the temperature, cooking cabinet climate, air speed and time. Easy to use. For more time, less raw materials and energy.

iProductionManager

The organisational talent. The unit knows which products can be cooked together, what the optimal order is and will make sure that the standard defined once is always maintained. Energy-optimised, time-optimised? You decide. All under control without checking and without supervision. For more efficiency and standardisation.

iDensityControl

iDensityControl the intelligent climate management system organises the interaction between sensors, the heating system and fresh steam generator, as well as active dehumidification. To maintain the right cooking cabinet climate at all times. For more productivity. 100 % quality.

iCareSystem

The cleaning and care system detects the degree of dirt and suggests the cleaning stage and quantity of chemicals. It can even do an ultra-fast interim clean in approx. 12 minutes. Each cleaning stage with phosphate-free chemicals and low energy consumption. The result: hygienically clean and quickly operational.

Training with RATIONAL.

Making your new kitchen a success.

Training with RATIONAL.

- › Worldwide roll-out
- › Train-the-trainer
- › Start training at your premises
- › Regular revision and updating of your concepts

The iCombi Pro is self-explanatory and can easily be operated error-free following a brief induction. Tailored to your own food concept or one created by RATIONAL, we will train you and your employees so that everything works smoothly and only desired results are produced.

InterContinental Hotels Group.

Breakfast as the competitive advantage.

Strengthen brands, increase customer satisfaction, build market share with the new breakfast range for HolidayInn Express in North America. Both as concerns the conception and preparation. Now, fresh foods such as scrambled eggs, breakfast bacon, sausages and cinnamon rolls are made from fresh ingredients daily. With a partner on side, which delivers everything from concept development, training to the cooking systems themselves.

The result:

1,800 units installed in 8 months. Increased guest satisfaction for the breakfast and hotel product. Reduced cost of goods while using more fresh products.

- ➔ **More flexibility and reliability**
Make loyal guests out of your guests.

ConnectedCooking.

All under control.

Networking technology is an important function in hotels; booking system, billing, HR planning – it all runs digitally, and it is all synchronised. Just like ConnectedCooking by RATIONAL. Recipe transfer, unit control, hygiene data, software updates and service remote access with the secure networking solution you can control everything from your desk. For all connected RATIONAL units. All over the world. You can also access and save HACCP data from all cooking systems. Do you have a new menu? They can also travel around the world at a click. All you need is a PC, smartphone or tablet. Standardisation does not get easier than that.

- ➔ **ConnectedCooking**
Powerful networking by RATIONAL. Always keeps everything under control.

rational-online.com/gb/ConnectedCooking

RATIONAL service.

We've thought of everything.

At RATIONAL, service is included. From the initial consultation, the test cook, test unit, installation to the worldwide training and automatic software updates, and ChefLine - the telephone hotline for individual questions. You can also attend training on various subjects, such as finishing, at the Academy RATIONAL. The worldwide RATIONAL Service team is always close at hand in case of emergencies.

- ➔ **All with a single objective.**
Ensuring your investment pays off in the long term, that you always get the most out of your cooking systems and that you never run out of ideas.

rational-online.com/gb/service

Example:
Limited service hotel
350 rooms, breakfast and à la carte

Conventional technology

- 2 × tilting pans
- 1 × combi-steamer
- 1 × 4-zone induction stove
- 1 × grill
- 1 × deep-fryers

iCombi Pro

- Savings:**
- Up to 45 % less use of space
 - Up to 60 % lower investment costs
 - Up to 70 % less electricity
 - Up to 50 % less staff

- 2 × iCombi Pro 10-1/1
- 1 × 4-zone induction stove

Example:
Limited-service hotel
120 rooms, breakfast, small dishes

Conventional technology

- 3 × speed ovens
- 1 × microwave

iCombi Pro

- Savings:**
- Up to 60 % less use of space
 - Up to 50 % lower investment costs
 - Up to 70 % less electricity

- 1 × iCombi Pro 6-1/1 with UltraVent Plus

A worthwhile investment.

For the environment, the cash flow and your hotel.

Get an idea of the savings you can achieve by installing one or more iCombi Pro units. You will save a lot of space: Your kitchen can be up to 60 % smaller. Investment costs too: For the iCombi Pro, for example, there is the UltraVent Plus, which requires no external connection and eliminates the need for another ventilation system where the cooking system is installed. And the environment: Sustainable production and low energy consumption of the cooking system on the one hand. With less over-production, less consumption of fat and less working time on the other hand. Together this is a major plus for your cash account and the environment.

- ➔ **For the sake of the balance sheet**
It saves a lot of money, as well as energy and water.

One cooking system. So many possibilities.

Which challenges would you like to overcome with an iCombi Pro? Different unit sizes and set up variations allow for individual solutions. Can't find the right one? You can find more variants at rational-online.com.

Let your iCombi Pro do its job:

- > Lower investment costs
- > Less staff.
- > Space-saving On less than approx. 1 m²
- > Flexibility when changing menus
- > Guaranteed success
- > Energy savings of up to 70 % compared to conventional cooking technology

➔ The result

As the size and performance adapt to the daily challenges.

- ➊ iCombi Pro 10-1/1 with condensation hood and stand
- ➋ Combi-Duo with two iCombi Pro 6-1/1 and Combi-Duo kit
- ➌ iCombi Pro XS with wall bracket
- ➍ Installation kit for iCombi Pro XS with condensation hood

Step by step.

Shaping the future together.

In the hotel business, anyone who is not one step ahead today will have no more guests tomorrow. It is becoming more and more important to regularly revise concepts, generate input and implement new ideas. This applies both to room design, breakfast or the bar. This is precisely why RATIONAL is there for you. With know-how. With the necessary expertise. With many new ideas. Always on the basis of what has already been created together.

- ➔ **What does the future bring?**
A whole lot of new ideas and concepts, so that you can continue keeping your customers happy.

Individual consultation services for your hotel.

Take advantage of our know-how.

Whether a comprehensive consultancy, concept creation or maintenance contract, for one or multiple hotels - RATIONAL is an experienced partner when it comes to supporting limited service hotels. You can use the whole service cycle or just one of the points listed. You can also enter at any point in the cycle. Interested? Then the RATIONAL hotel experts look forward to receiving you email at hotels@rational-online.com.
