Recipe management.

Your standard of quality, implemented everywhere.

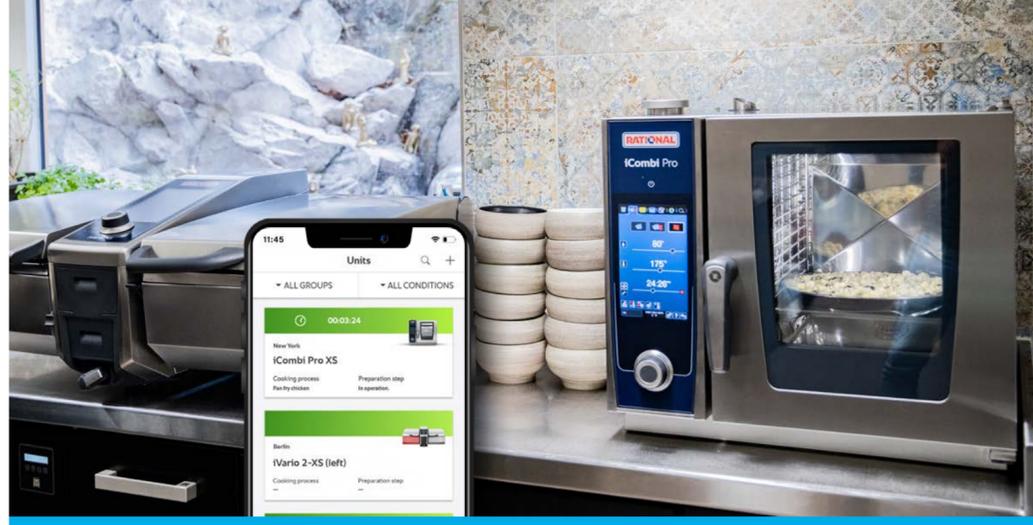

Create and digitally manage your own cooking programs or draw inspiration from the RATIONAL recipe library. Transfer cooking programs to all of your networked RATIONAL cooking systems with just a click. In a matter of seconds. So that all your kitchens will always produce the high-quality results you specify everywhere.

Recipe creation: Create and save your own recipe ideas with ease.

Cooking program management: Transfer cooking programs to your networked RATIONAL cooking systems in seconds, so that every dish is equally delicious at every location.

Global recipe library: Inspiring international recipes from RATIONAL expert chefs, including corresponding cooking system settings.

Production planning: Quick and easy production planning via PC or laptop.

Asset management.

Stay up-to-date on what's happening in the kitchen.

Stay on top of everything from anywhere: A cooking system dashboard, automatic software updates, customizable displays, remote access, and real-time push notifications provide important information and keep processes transparent, so you'll have the security of always knowing what's going on.

Software updates: Free of charge - your cooking systems will always remain up-to-date, and you'll continue to benefit from RATIONAL's latest innovations.

Dashboard: All your cooking systems visible at a glance: Overview of online and service status information, cooking system availability and usage, cleaning details. For greater transparency and a feeling of security.

MyDisplay Configurator: Create custom display screens on a PC or laptop and transfer them to networked iCombi Pro and SelfCookingCenter® cooking systems with just a click. For intuitive cooking system operation and uniform standards across all locations.

Remote access: Access your iCombi Pro or SelfCookingCenter® digitally from anywhere via PC, tablet or smartphone to monitor cooking processes or change settings.

Hygiene management.

Always on the safe side.

It's always better to be on the safe side. Checking, monitoring, and recording your HACCP data digitally has never been easier. One-touch downloads of all your HACCP data. View convenient cleaning and care status information; create cleaning schedules in no time.

Automatic HACCP documentation: Comprehensive HACCP data is automatically collected and documented for up to six months.

Controlling and downloading HACCP data: Just click to save your HACCP data so that you'll always have it ready.

Cleaning and care status overview: The dashboard view helps you keep an eye on the cleaning and care status of all of your iCombi Pro and SelfCookingCenter® systems.

Creating cleaning schedules: Easier than ever thanks to the MyDisplay configuration tool. Ensures that all of your iCombi Pro cooking systems are always clean and hygienic.

Sign up and get started right away.

Welcome to the team.

Use ConnectedCooking conveniently from your PC, tablet, or mobile device. Download the ConnectedCooking app for free and access your RATIONAL cooking systems digitally.
