

## Software Update

SelfCookingCenter®

CombiMaster® Plus

## SelfCookingCenter®

You can update cooking system software using the integrated USB interface.

Step	Info/Button	Instructions
1		Insert the USB stick with cooking system software into the interface beneath the control panel
2		Switch the cooking system off and on again.
3	<b>Update - Please wait</b>	Follow the instructions on the display. Do not remove the USB stick during data transfer.
4		Remove the USB stick once the "Update" screen has disappeared and the home screen can be selected.
		Proceed as follows to verify the software update.
5		Press the MySCC button.
6		Press the "Service" button.
7		Press the button for software version information.

 In the event of a power failure during data transfer, do not remove the USB stick; instead, switch on the power supply again and monitor the display.

## CombiMaster® Plus

The USB stick should be connected and disconnected when the unit is switched off.

Step	Info/Button	Instructions
1		Switch the unit off and insert the USB stick in the slot underneath the control panel.
2		Keep the "ClimaPlus®" button and the "Prog/Start" button pressed at the same time.
3		Switch the unit on. The update process has been completed when the standard values of the operating mode selected, e.g. cooking cabinet temperature, are displayed.
