

Software-Update

SelfCookingCenter®

CombiMaster® Plus

SelfCookingCenter®

You can update the unit software via the integrated USB interface.

Step	Info/button	Description
1		Insert the USB flash drive with unit software into the interface under the control panel
2		Switch the unit off and on again.
3	Update - Please wait	Note the information on the display. Do not remove the USB flash drive during data transfer.
4		Remove the USB flash drive when the "Update" display disappears and the home screen can be selected.
Proceed as follows to check the updated software.		
5		Press the MySCC button.
6		Press the "Service" button.
7		Press the button for information about the software version.

 In the event of a power failure during data transfer, do not remove the USB flash drive, but switch on the power supply again and observe the display.

CombiMaster® Plus

The USB stick should be connected when the unit is switched off.

Step	Info/button	Description
1		Switch the unit off and insert the USB stick in the slot underneath the control panel.
2		Keep the "ClimaPlus"® button and the "prog/start" button pressed at the same time.
3		Switch the unit on. When the update process is complete, the current software version will flash on the display.
